Education

Indian Institute of Information Technology Nagpur, India

Dec 2020 - June 2024

Bachelor of Technology - Computer Science Engineering

CGPA : 7.1

Experience

Fanon

Sep 2025 - Jun 2026

Software Engineer (Full-Stack)

Bangalore, Karnataka

- **Full-stack engineer driving core platform systems end-to-end** for a fan-content platform (fanfiction, comics, video) — authored **150+ merged PRs**.
- **Designed and shipped the lifecycle-email engine** on **Convex** and **Customer.io** — fan & creator onboarding, retention, and win-back campaigns across 15+ templates — with **timezone-aware delivery** (sleep-hour exclusion) and runtime feature flags for zero-redeploy rollout. Increasing the **fan-retention by 78%** and **creator-retention by 64%**
- **Engineered a dual-layer notifications system** — a real-time in-app feed (25+ event types) and a native **push-notification pipeline** with a type-safe orchestrator, 23+ extensible handlers, per-user peak-hour scheduling, and exponential-backoff retries scaling to 150k+ followers per fan-out. Increased content **engagement by 70%**
- **Provisioned multi-cloud Kubernetes infrastructure** (**GKE** on GCP, **EKS** on AWS) using **Go** and **Pulumi** IaC — clusters, node pools, IAM roles, Workload Identity/OIDC, and GitOps deploys via **Argo CD** and **Traefik**; owned the **Prometheus/Alertmanager** observability and alerting stack.
- **Optimized the Convex backend** — reduced query bandwidth and migrated follower/like/view counts to denormalized aggregates for faster real-time reads; built a **PostHog/Mixpanel** A/B-testing and server-side analytics pipeline.

OtherwiseAI

Jun 2024 - Jul 2025

Software Engineer (Full-Stack)

Bangalore, Karnataka

- Developed a merchandise website for a client, optimizing performance and **improving site loading speed by 24 %**.
- Developed a billing feature for an ERP to fetch bills and upload summaries, **improving text retrieval accuracy by 27 %**. Used **Open AI API**, **Google vision** and **Amazon textract** to achieve the said benchmarks.
- Contributed to the development of an AI-powered interview platform, integrating advanced AI capabilities and **optimizing video feed performance to load 20 % faster**.
- Built frontend with **Next.js**, **React**, **Tailwind**, **ShadCN**, **TypeScript** and backend services with **Node.js**, **Express.js**; integrated **AWS**, **Firestore**, **Algolia**, **OpenAI API**, and **Supabase**.

Pinнове

Dec 2023 - May 2024

Full Stack Developer

Nagpur, Maharashtra

- Specialized in **designing audit trail** logic for an ERP model to ensure compliance with regulatory standards.
- Identified and **analyzed data anomalies**, **improving system reliability and data integrity**.
- Collaborated effectively within a development team, contributing to scalable and maintainable solutions.
- Assisted in implementing robust audit trail procedures, ensuring seamless code functionality and security.

Authbase.net

May 2023 - July 2023

Backend Developer

Remote

- **Developed custom chatbots** to help clients manage organizational employees using **Express**, **Node.js**, and **MongoDB**.
- **Integrated Google APIs** to enhance chatbot functionality and automation.

Projects

K8s Deployment Lab: containerized service orchestration | *Kubernetes, Docker, Go, PostgreSQL, NGINX Ingress*

- **Architected** a multi-tier application on **Kubernetes**, using **Deployments**, **Services**, and **Ingress**-based routing to achieve self-healing, zero-downtime rolling deployments.
- **Containerized** a Go REST API and PostgreSQL backend with **Docker**, managing configuration and secrets via **ConfigMaps/Secrets** and provisioning persistent storage through **PV/PVC**-backed volumes.

East clothing : E-commerce Website | *MongoDB, ExpressJS, ReactJS, NodeJS, Visual studio code, Postman*

- **Developed** a full-featured **MERN** e-commerce platform with **user authentication**, and product catalog management.
- **Engineered** a secure auth/authorization system with industry-standard encryption and a responsive **React UI**.

Technical Skills

Languages: JavaScript, TypeScript, Go, Python, C/C++, Java, SQL, PHP

Frameworks/Libraries: React, Next.js, Node.js, Express.js, Convex, FastAPI, Tailwind, ShadCN

Cloud & DevOps: GCP, AWS, Kubernetes (GKE/EKS), Pulumi, Docker, Argo CD, CI/CD

Databases & Observability: MongoDB, PostgreSQL, MySQL, Redis, Elasticsearch, Prometheus, Grafana

Tools & Concepts: Git, Postman, PostHog, Mixpanel, OAuth/JWT, DSA, DBMS, OS, Computer Networks
